

Janet and Jack are Homeward Bound. . .

Over four thousand kilometres, one hundred and ninety days, twenty-seven weeks, five hundred podcasts, four pairs of shoes and several blisters... These figures capture the immensity of the journey Animal Aid Abroad's founder, Janet, and her rescue dog, Jack, have been undertaking for

close to six months during their **Walk Across Australia for Working Animals**. Despite facing many challenges, including a global pandemic, Janet and Jack have remained resolute in their mission to **highlight the plight of overworked and abused working animals and raise \$250,000** to fund AAA's eighteen partner projects across fourteen countries.

This video from our partner group, Meru Animal Welfare Organization (MAWO) in Tanzania, demonstrates the critical work Animal Aid Abroad does to help grassroots organisations such as MAWO.

Janet and Jack are walking to raise enough funds to support programs such as these, which assist donkeys and many other working animals globally.

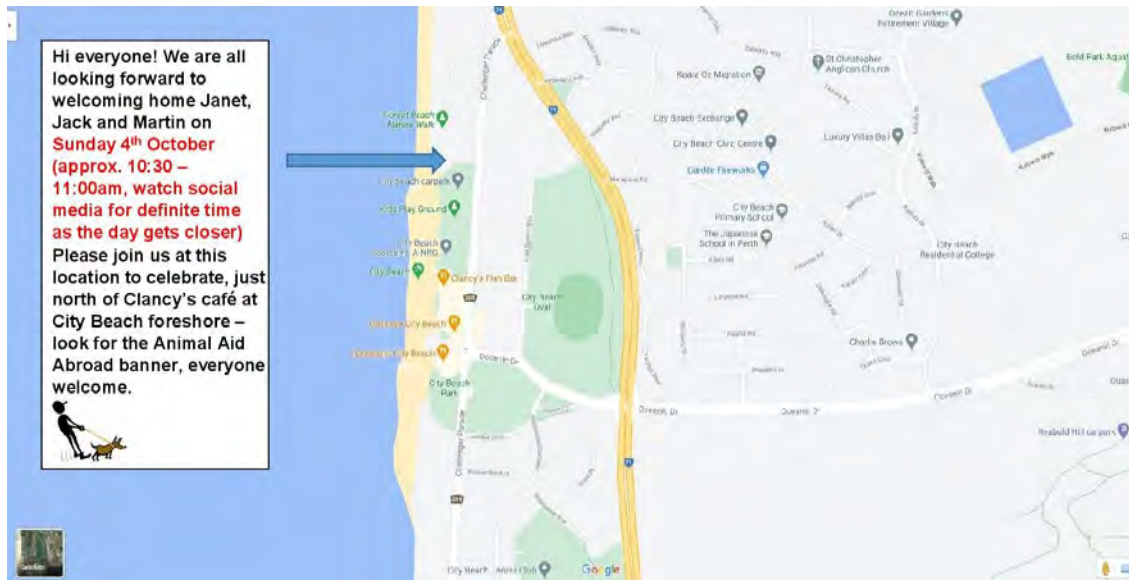

Excitingly, Janet and Jack are currently on the homeward stretch with approximately 200 kilometres to go, and are on track to reach the **City Beach Foreshore in Perth on Sunday, 4th of October, between 10:30-11am**.

Although fundraising efforts during the walk have been amazing, Janet and Jack still need whatever help they can get to reach their final goal of \$250,000. **Please click below to make a donation, small or large, to inspire and encourage Janet and Jack during the final days of their colossal walk.** Or donate directly to the AAA bank account: BSB: 066103; Account No. 1023 2438. All donations are tax deductible in Australia.

Then, remember to **head down to City Beach Foreshore in Perth on Sunday,**

4th of October at 10:30am, to celebrate Janet and Jack's extraordinary achievement and demonstrate your care and love for working animals globally. Please refer to the map below for the exact location of their arrival and we look forward to seeing you there!

First Clinic Hits the Ground in Colombia

Animal Aid Abroad have a new partner group called FRAD (Fundación Rescate para Animales Desamparados) in Cartagena, Colombia. Thanks to funding from AAA and Animales Latino América, they recently held their first clinic for working donkeys and horses in the Pozon district. The team provided 54 working equines with veterinary treatment, seeing conditions including lacerations, dermatological problems, lower back pain, malnourishment and geriatric-related issues. Most of the equines presented as malnourished, which is thought to be related to the isolation resulting from COVID-19. Further blood tests and nourishing food are desperately needed for these animals.

Where Does the Money Go?

The majority of funds raised and donated by YOU go direct into animal care. We do not receive any government funding or other grants and rely solely on the generosity of our supporters and donors.

Based on financials, year ending June 2020, the largest proportion of our budget is sent overseas to fund our working animal projects in India, Sri Lanka, Nepal, Afghanistan, Colombia, Kurdistan, Israel, Uganda, Tanzania, Zambia, Liberia and Zimbabwe. Your support enables direct veterinary care and treatment, education, equipment, food, water and shelter plus rescue to thousands of mistreated and abused working animals annually.

We work hard to keep our expenses to an absolute minimum so your donation has the most impact and effect to help working animals in need.
